ORG. MISSION, PURPOSE AND/OR CONTACT INFO: Africa Inland Mission (AIM) has a passion to see the worship of Jesus Christ spread across the continent of Africa. We desire to see Christ-centered churches among all African people groups. Today, nearly 1000 of Africa's 3700 unique ethnic people groups are still unreached, with no viable witness to the good news. That's over 300 million people who have little opportunity to hear the gospel, and even less to be discipled as a follower of Jesus. Africa Inland Mission has been leading people into meaningful cross-cultural ministry for more than 125 years. We send workers throughout Africa and among African diaspora around the globe. We're engaged with over 100 unreached people groups and have hundreds of opportunities to join in. The work is often as diverse as the gifts that each member brings, but all of our activities fit within three broad areas of focus: disciple-making among the unreached, equipping and mobilizing African churches, and serving and supporting the above. We have opportunities to serve- both short term and full term. Connect with us to hear how you can be a part of what God is doing!

ORG. MISSION, PURPOSE AND/OR CONTACT INFO: Child Legacy International is a Christian nonprofit working in Africa to transform lives and break the generational cycle of poverty and despair. We develop the key resources of reliable power, clean water, healthy food and farming, vocational training, and life-saving health care in the rural communities that need them most. Our mission is to cultivate opportunity, self-reliance and sustainability, preparing fertile soil where hope can grow. CLI provides sustainable development to more than 120,000 rural Africans every year. Child Legacy International repairs broken water pumps across the entire country of Malawi, an entirely free service for the communities in need. Repairing wells alone ensures decreased mortality rates and allows women and girls— who spend the majority of their days hauling water long distances — the chance to manage their households, attend school, or engage in income generating work. A gospel message is shared during every repair; however, a Christian faith is not required to receive a well repair. We work closely with community members to teach and promote safe health and hygiene practices, such as washing their hands and dishes with soap and handling water the safe way. The goal of our Clean Water program is to reduce the spread of waterborne illnesses across the nation. Launched in 2011, the purpose of the annual Clean Water Climb is to raise awareness and funds for clean water in Malawi, Africa. You may be thinking, “Why climb to the summit of Mt. Kilimanjaro?” It’s simple: Mt. Kilimanjaro is the world’s tallest freestanding mountain. It reaches an outrageous 19,341 feet. That’s nearly 4 miles upward. This mountain is large, and that is a perfect representation of the enormity of the water problem in Malawi, Africa. To learn more about the Clean Water Climb visit www.cleanwaterclimb.net!
